Year 11 Course Overview

This booklet contains information concerning assessment tasks used to measure academic progress for Year 11 courses at Southern Cross School of Distance Education.

Assessment of academic progress will measure a student's achievement relative to other students attempting the same course.

Assessment includes both formal situations and observation of student's performance. In any particular subject, these may involve some of the following:

- written, practical, speaking and listening tasks
- assignments including essays and practical tasks
- projects of varying degrees of length and complexity
- one examination or task under exam conditions

Each course will issue information regarding requirements that are particular to that course. A maximum of three assessment tasks, with a limit of one examination within this three.

Satisfactory completion of Year 11 courses

Satisfactory completion of Year 11 courses to the value of 12 units is a prerequisite for the award of a Higher School Certificate.

Satisfactory completion of each Year 11 course is dependent on students successfully applying the information in this booklet and showing diligent and sustained application to their studies.

Before a student can be judged to have satisfactorily completed a Year 11 course the Principal must certify that they have:

1. made a satisfactory effort in all their studies, ie applied themselves with diligence and made a sustained effort
2. achieved some or all of the syllabus outcomes
3. completed the course requirements in terms of practical, oral and project works, ie have followed the course as set by the school
4. satisfactory completion of required work placement hours for VET Framework courses if applicable.

Record of Student Achievement

The Record of School Achievement (RoSA) is the credential for students who leave school after Year 10 and before they receive their Higher School Certificate (HSC). The RoSA is not a one off document, it is a progressive credential. Students will only receive their RoSA once they leave school prior to completing the HSC.

The RoSA will provide a profile of the achievement of each student in relation to the course performance descriptors for Year 10 and 11. At the end of Year 11 student's achievement will be recorded to indicate their achievements in the course they have studied over the Year 11 year. Eligibility for the awarding of a RoSA is gained through the satisfactory completion of Stage 6 courses in Year 11. Where a student has been deemed ineligible for a Year 11 RoSA credential they will receive a transcript of study.

Pattern of study

NESA mandates that to be eligible for the Year 11 RoSA and the HSC you must complete a Year 11 pattern of study comprising at least 12 units that includes:

- at least six units of Board Developed Courses
- at least two units of compulsory English
- at least three courses of two-unit value or greater (either Board Developed or Board Endorsed Courses)
- at least four subjects
- Maximum of 6 units of Science (year 11) and maximum of 7 units of Science (year 12).

For a Year 11 year leading to an HSC with an ATAR (university entrance) your pattern of study must include:

- at least 12 units (i.e. 6 subjects)
- at least 10 units of Board Developed Courses
- at least 2 units of a Board Developed course in English (not English Studies)
- at least 8 units of category A courses
- only 2 units of Category B courses (VET)

Requirements for the HSC – meeting the minimum standard in literacy and numeracy

To be eligible for a HSC students need to demonstrate they have met a minimum standard in literacy and numeracy.

Students will show they meet the HSC minimum standard by passing online tests of basic literacy and numeracy skills, which are available for them to sit when they are ready in Year 10, 11 and 12 and after the HSC

Students get up to four times per in year 11 to sit each minimum standard reading, writing or numeracy test.

About the tests:

- Reading: 45 multiple choice computer adaptive questions
- Numeracy: 45 multiple choice computer adaptive questions
- Writing: One question based on a visual or text prompt.

Schools with single course students accessing distance education

The distance education enrolment guidelines state:

“The maximum number of units studied by a student including the distance education course, must not exceed 13 units in the Year 11 course and 11 units for the HSC course.”

All my own work

Students must complete the *HSC: All my own work* course as a requirement for enrolment in Year 11 courses. Completion of this course must be recorded on the NESAs schools online data collection section prior to Year 11 course entries.

Students entered only as Stage 6 Life Skills courses are exempt from this requirement.

“N” Determinations

Students who do not make a genuine attempt to adequately complete their course may be awarded an “N” determination in that subject. This means that the course will not be recognised for the RoSA or HSC.

If a student is in danger of receiving an “N” determination the faculty will inform the students and confirm with a letter home. This letter will include details of all outstanding work to be completed and this will be done in time for the student to redeem his/her position. N determinations are made in September each year.

Students who accumulate the HSC (Pathways)

Students, who gain approval to accumulate the HSC over a number of years, will receive their Year 11 and HSC Assessment information each relevant year.

The Pathways option allows an extended time frame to gain the award of a RoSA or the HSC. When students select the pathways options they still have to meet the requirements of completing each subject in the set 12 month period. Pathways offer an extended time for the awarding of the credential not for the completion of each subject. When completing a pathways option it is the number of subjects that is reduced each year not completion of the same courses over a number of years.

Compressed course delivery

Students who are enrolled in a compressed course will have an adjusted assessment schedule suitable to the time frame for that mode of delivery. An assessment policy specifically relevant to compressed course students will be provided to the school and students.

Attendance

While NESAs does not mandate attendance requirements, the Principal may determine that, as a result of insufficient return of work, the course completion criteria have not been met. This will be regarded seriously by the Principal who will give students early warning of the consequences of such absences. Attendance in DE is viewed as engaging in the learning activities and returning work provided by your teacher in a diligent and sustained manner.

Repeat Students

Students who are repeating Year 11 courses will be assessed only on assessment tasks completed in the repeat year.

Courses studied with an Outside Tutor

The school will submit assessment marks, endorsed by the Principal, for students studying courses with an outside tutor. When AMEB music is taught outside the school, assessment marks are not required.

The details of the SCSODE Year 11 Assessment Policy follow. This should be read carefully by staff, students and their parents/carers to ensure thorough understanding. Any enquiries can be made to the year adviser, single course coordinator head teacher or curriculum head teacher.

Year 11 Assessment Procedures

Teachers are required to weigh up the individual context of each student in the application of this policy.

Assessment tasks

Assessment tasks are designed to measure what a student knows and can do in a given course at this school. Assessing student achievement for the RoSA involves the collecting of information on student performance in relation to the syllabus objectives and outcomes addressed through a range of assessment tasks and activities. Through this assessment program along with observations of teaching and learning, teachers will build a profile of the achievements of each student in relation to the common grade scale. Assessment is an integral part of teaching and learning and must be supportive of student learning and achievement.

Timing and notification of assessment tasks

The assessment period will commence Week 2 Term 1 2024 and conclude Week 10 Term 3 2024. The timing of tasks is published in the assessment schedules included in this booklet. Where possible, all assessment tasks are to be held no later than week 8 of each term, except for the Year 11 examination week in Term 3 2024.

Teachers will provide:

- notification of specific dates of assessment tasks issued in writing at least ten school days prior to the due date for the task
- information on the type of task, its value, the outcomes to be assessed, marking guidelines and the mode of submission for the task.

Ideally no task will fall within the ten school days prior to the major examinations at the end of the course.

It is the student's responsibility to notify the relevant teacher or the KLA head teacher if they have not received complete details of assessment information for any course. This may have resulted because of absences, illness or other circumstances that prevented the student being given the information.

Students are expected to perform all tasks which are part of the assessment program in the courses being studied.

Number of assessment tasks

A balance is essential between obtaining sufficient information about student's learning and the number of assessment task. For 2 unit courses 2 to 3 assessment tasks will be scheduled.

Value of assessment tasks

Assessment tasks generally will be worth not less than 20%, or more than 40% of the total available assessment marks. In general, later tasks will carry more weight than earlier tasks.

Nature of assessment tasks

A range of assessment strategies will be used to ensure that a variety of tasks are provided to assess the different components of each course. Assessment tasks will be appropriate to the outcomes of the course being assessed. The range of tasks used will meet the criteria of the appropriate syllabus, reflecting a range of assessment instruments and an appropriate balance between knowledge /understanding outcomes and skills outcomes.

Tasks will be set at an appropriate level of difficulty that allows the full range of marks to be achieved.

Each faculty will have, on record, a document which shows how the course assessment components given in syllabus documents are incorporated into the assessment program. The relevant head teacher is responsible for ensuring these are present for each course and meet syllabus requirements.

Assessment will not:

- take into account the conduct of the student;
- compensate for such factors as; extended illness, misadventure or domestic problems affecting the preparation or performance of a student during the course.

Invalid assessment tasks

An invalid task is one which does not achieve its intended purpose either because of its design or because of problems in its administration.

In the event of an invalid task, a review will occur and the student(s) will be given a replacement task.

Mode of submission and due date of assessment tasks

All tasks are to be returned to Southern Cross School Distance Education by the due date indicated on the assessment task notification.

Students must submit their assessment tasks via the mode specified on the assessment task notification page. This may include digital or hard copy.

Feedback on completed assessment tasks

Once an assessment task is marked it will be returned to the student with a mark and a written comment.

Extensions

Students are able to apply for an extension of time for their assessment tasks. Requests for a time extension for an assessment task must be made to the course teacher prior to the due date.

Students should complete the application for extension of time for an assessment task form enclosed in this booklet and send it to their teacher OR make a request via phone or email and the required form will then be completed and lodged on your behalf by the teacher.

Requests will be granted if the teacher and the subject head teacher are convinced that a genuine case exists.

Late Submission of a Task

If a student submits an assessment task late without an application for extension of time the student will receive a non-completion warning.

Non-completion of assessment tasks

A refusal by a student to complete a task or to meet the submission requirements will result in a non-completion award for the task.

The teacher will inform the student and parents in writing of the penalty following a telephone call with the student. The task will still need to be completed in order to satisfy the requirements of the course.

In the case of prolonged absences, the Learning and Support team will be consulted.

Non serious attempt

When a student neglects to follow the NESA guidelines of *Good Scholarship*, as set out in the mandatory *All My Own Work* course. Key attributes of good scholarship are being an effective researcher and applying effective study habits.

Effective study is an important part of good scholarship. Being well organised, planning ahead and being sure of what is required will help you to avoid rushing your work and not doing your best.

HSC: All My Own Work > 1. Scholarship Principles and Practices > 1.1 Good scholarship Not completing an assessment task to the best of your ability

Appeals against assessment task determinations

At times students may appeal against a determination, including a mark or grade, late submission penalty made by a teacher.

The processes for an appeal are:

Student

- lodge an appeal in writing within one (1) week of receiving the determination
- seek support from their year adviser if required, and
- provide documentary evidence from an independent professional, such as a doctor's certificate.

Teacher

- inform their KLA head teacher, head teacher curriculum and deputy principal of the appeal on the day it is received
- confer with their KLA head teacher on the acceptability of the explanation, and
- provide their KLA head teacher, the head teacher curriculum and deputy principal with copies of the Appeal and the original written notice of the determination together
- with any other relevant documentation.

Head teacher Curriculum/Principal

- form a review panel
- ensure the panel meets promptly after the receipt of the appeal in the school, and,
- notify the appellant in writing the result of their view.

Disability provisions

Disability provisions are available to students who need them to complete a task (e.g. for a reader or scribe, extended time or for large print papers), however no special considerations will be made in marking a completed task.

If disability provisions are required the student must notify the school when first enrolled and again at the beginning of each school year.

Assessment marks

Each faculty is responsible for maintaining complete, accurate and secure records of each assessment task given. This includes one electronic copy in DEMS.

Reporting

Formal school reports are prepared at the end of the Year 11 course. Reports will indicate the Year 11 course overall grade for the course completion. Student effort will be reflected in the learning behaviours and teacher's comments. The Year 11 Interim Report will include student effort reflected in the learning behaviours and teachers' comments.

Comments will identify areas of student strength and areas for further improvement. Teachers of VET subjects will report on achievement in the VET competencies.

Year 11 Grades for the RoSA

After the completion of each Year 11 course teachers are responsible for recommending a RoSA grade that best reflects the student's achievement as measured against the Common Grade Scale. Grades are reported by NESA on each student's transcript of study and RoSA or HSC credential.

The Year 11 Common Grade Scale

The Common Grade Scale is used to report student achievement in the Year 11 Stage 6 year in all NSW schools and describes performance at each of five grade levels as listed on NESA website:

A

The student demonstrates extensive knowledge of content and understanding of course concepts, and applies highly developed skills and processes in a wide variety of contexts. In addition the student demonstrates creative and critical thinking skills using perceptive analysis and evaluation. The student effectively communicates complex ideas and information.

B

The student demonstrates thorough knowledge of content and understanding of course concepts, and applies well-developed skills and processes in a variety of contexts. In addition the student demonstrates creative and critical thinking skills using analysis and evaluation. The student clearly communicates complex ideas and information.

C

The student demonstrates sound knowledge of content and understanding of course concepts, and applies skills and processes in a range of familiar contexts. In addition the student demonstrates skills in selecting and integrating information and communicates relevant ideas in an appropriate manner.

D

The student demonstrates a basic knowledge of content and understanding of course concepts, and applies skills and processes in some familiar contexts. In addition the student demonstrates skills in selecting and using information and communicates ideas in a descriptive manner.

E

The student demonstrates an elementary knowledge of content and understanding of course concepts, and applies some skills and processes with guidance. In addition the student demonstrates elementary skills in recounting information and communicating ideas.

[Common Grade Scale](#)

Examinations and tasks to be completed under exam conditions

Students are to be fully supervised in timed conditions as prescribed by the examination notification. Students must be supervised for the full length of the exam or task. Time allowed for the exam or task must be adhered to, with the only exception being for students who have an approved disability provision that allows extra time.

Reading time is provided at the beginning of each examination. During reading time students are not permitted to write, highlight or annotate their paper in anyway. If the examination permits the use of dictionaries, students may consult their dictionary.

Student's must not:

- take a mobile phone or programmable watch or device into the examination room or designated exam space
- take any electronic device, including a digital media player or electronic tablet, into the examination room, unless approved by NESAs and is listed as required for the exam or task
- speak to any person other than a supervisor during an examination, behave in any way likely to disturb the work of any other student or upset the conduct of the examination
- take into the examination room, or refer to during the examination, any books or notes, any paper, or any equipment other than the equipment listed in the examination timetable
- take water bottles with labels into the exam room
- alter the exam times unless granted permission for disability provisions

Consequences for breaches of the examination rules will result in a finding of malpractice and the assessment task mark will be penalised. Students must make a serious attempt at all examinations.

A serious attempt means attempting all questions to the best of your ability, avoiding foul language or inappropriate responses. Any non-serious attempts will result in a zero determination and students will be required to re sit the examination paper

Examination timetables

Scheduled exams will be available to be viewed from the student portal. Year 11 exams are to be held within the security period of weeks 6, 7, 8, 9 and 10 Term 3 2024. No schools are to hold exams after week 10 for the Year 11 examinations as it is too late for marking and to meet course completion deadlines for roll over in to the Year 12 component of the course. Schools are to ensure requests in regard to scheduling of DE exams is communicated to SCSODE.

Illness/Misadventure

At times students may suffer an illness or event that affects their ability to participate in or complete an assessment task. If there is an incident which is likely to affect a student's performance, the student can submit an illness/misadventure appeal.

For an examination the student must:

- inform the teacher or supervisor before the examination begins and/or contact DE immediately if illness or misadventure occurs during the examination
- complete the appeal form and return within one week of the date of the examination
- provide evidence or supporting documentation eg a medical certificate and an appeal form to support the illness/ misadventure claim.

Appeal forms can be found in this booklet and on the DEMS student portal.

For a scheduled assessment task the student must:

- inform the subject teacher and head teacher, year adviser or single course coordinator immediately and return an appeal with supporting evidence to explain the circumstances surrounding the illness and/or misadventure
- complete the appeal form and return within one week of the date of the assessment task

Once an Appeal form is received:

- a panel will be formed by the head teacher curriculum in consultation with the deputy principal to review the appeal and assessment task
- results of the appeal will be notified in writing to the student

Where the appeal is upheld the student will be provided with an alternate task or a new date for same task if this does not compromise assessment procedures. In exceptional circumstances, such as death of a family member, the students overall assessment mark should be based upon pro rata increases to weightings of assessments the student has completed to end with mark out of 100. Where an appeal is overturned the student will receive a non-award determination for the task.

Honesty in assessment

The honesty of students in completing assessment tasks, examinations and submitted works, and of teachers and others in guiding students, underpins the integrity of the Higher School Certificate. Throughout the assessment process, the highest level of honesty is required.

Each student's mark will be determined by the quality of the work produced by the student only. To demonstrate honesty, any component of a student's work that has been written, created or developed by others must be acknowledged in accordance with the Board's subject-specific documentation. Use or inclusion of material from other sources such as books, journals and electronic sources, including the internet, must be acknowledged in full. General teaching and learning does not require formal acknowledgement.

Dishonest behaviour carried out for the purpose of gaining unfair advantage in the assessment process constitutes malpractice, or cheating.

Malpractice

All work presented in assessment tasks and external examinations (including submitted works and practical examinations) must be the students own. Malpractice, including plagiarism, could lead to a student receiving zero marks and may jeopardise their Year 11 results. Malpractice is an activity that allows a student to gain an unfair advantage over other students.

It includes, but is not limited to:

- copying someone else's work in part or in whole, and presenting it as their own
- using material directly from books, journals, CDs or the internet without reference to the source
- building on the ideas of another person without reference to the source
- buying, stealing or borrowing another person's work and presenting it as your own
- submitting work that another person such as a parent, coach or subject expert has substantially contributed towards
- using words, ideas, designs or the workmanship of others in practical and performance tasks without appropriate acknowledgement
- paying someone to write or prepare material
- breaching school examination rules
- using non-approved aides during an assessment task
- contriving false explanations to explain work not handed in by the due date
- assisting another student to engage in malpractice.

Consequences of malpractice

Where a teacher believes they have evidence of malpractice, including but not restricted to plagiarism, a letter outlining the suspected form of malpractice along with evidence will be sent to the supervisor and student. Information regarding any penalty applied will also be included.

Students have the right to appeal a malpractice determination if they believe they have acted with integrity. When submitting an appeal, students will be required to provide evidence that they did not breach any of the assessment task rules or take part in any form of malpractice. Such evidence might include but is not limited to providing documentation of and explaining the processes of the work, which might include study notes, diaries, journals, working plans or sketches, and/or progressive drafts to show the development of ideas.

CHAT GPT and artificial intelligence models

A lot of students have heard of Chat GPT and other artificial intelligence models and while it can be a useful tool for language learning and writing practice, it should not be used in the context of completing assessment tasks.

Teachers are aware that some students are using this tool and students are encouraged to develop their critical thinking, writing, and communication skills through engaging and meaningful learning experiences. Chat GPT, is not a reliable tool to use in completing assessment tasks. Here are a few reasons why:

- Chat GPT generates responses based on its training data and algorithms, which may not always be accurate or appropriate for the task at hand. Its responses can be vague, repetitive, or irrelevant to the question being asked.
- Chat GPT cannot evaluate the quality of the content generated by students or the accuracy of the information provided. For example, if students use Chat GPT to complete an essay or research task, it may generate content that is not factual or accurate, leading to lower grades or incomplete learning outcomes.
- Relying on Chat GPT to complete assessment tasks can lead to a lack of motivation, interest, and confidence in your own ability to learn and grow.
- Using Chat GPT in assessment tasks may compromise the integrity of the evaluation process. Assessment tasks are meant to assess students' independent thinking, critical analysis, and communication skills, which are essential for your future academic and professional success. If students rely on Chat GPT to complete assessments, they may not develop these skills and may be at a disadvantage when facing real-world challenges.

Above all the use of Chat GPT may result in a malpractice determination where students may receive zero.

Unsatisfactory completion of a subject

Unsatisfactory completion of a subject is referred to as an “N” determination and when a student is in danger of receiving an “N” determination they will be notified by an official notification.

If a student is not meeting the requirements of a subject and is in danger of receiving an “N” determination; their subject teacher will discuss with them how they can avoid an “N” determination.

An official notification will be sent outlining what must be completed and the date for it to be completed. When an official notification is sent to a student it indicates how the student is not currently meeting the course requirements. It will also outline the work required for the student to complete and a reasonable timeframe to redeem themselves in that subject.

If a student receives an official notification they should contact the teacher to discuss in detail what they need to do.

Where a minimum of two official notifications in a subject has been sent to a student and the work outlined in the letter is not completed, the official notification will be recorded as unredeemed. This will be evidence used when considering an “N” determination.

If the student does not meet the agreed requirements by the end of Year 11, a recommendation for an “N” determination for that course will be given to the Principal.

If a student receives an “N” determination they have the right to appeal against the determination.

Communicating school policy and procedures regarding assessment

DE provides for this in the following ways:

- distribution of the booklet “Year 11 Assessment policy and schedules” to all fulltime students and all schools with Year 11 students enrolled
- requesting that single course students are provided with a copy of their assessment schedule by their Supervisor at their home school
- requesting that single course students are informed of differences between the DE policy and the home school policy
- having teachers of each course provide course outlines and assessment details to all their students
- providing students undertaking compressed patterns of study with an adjusted assessment schedule to meet the timetable for completing the compressed course

Evaluating the school policy

The Year 11 Assessment policy is evaluated annually by the curriculum head teacher, executive staff and the curriculum team. This evaluation includes the guidelines, procedures and lines of communication associated with its implementation.

Responsibility of the student

It is the responsibility of the student to:

- Complete all tasks

It is expected that students will complete all tasks, practice good scholarship with no sign of malpractice.

- Keep informed

Students are to ensure that they keep all information regarding assessment tasks.

- Complete tasks at the appointed time

It is a student's responsibility to complete an assessment task on or by the day it is due and post it as soon as possible. Alternate arrangements require prior agreement by their subject teacher.

- Request adjustments to assessment schedules where necessary

This may occur when assessment tasks are due on the same day in which case it is the student's responsibility to inform their teacher.

- Report absence from tasks

Necessary documentation must be provided if a student is unable to submit a task at the appointed time.

- Be aware of requirements

Students need to keep up to date with the NESAs requirements for the award of the RoSA and the HSC

- Follow their assessment schedules

Students must ensure they have a copy of the assessment schedule for each course they are studying and be fully aware of course requirements.

- Be familiar with the school guidelines

Students are expected to be aware of the Southern Cross School Distance Education Year 11 Assessment Policy as detailed in this booklet.

- Report and apply

The onus is on students to report and apply for illness/misadventure where appropriate.

- Seek advice

It is the student's responsibility to seek advice from the year adviser or the single course coordinator if there is a problem which has not been resolved satisfactorily within a course.

Responsibility of the supervisor

It is the responsibility of the supervisor to:

- Support and encourage the student to engage in regular learning activities
- Know who are the student's teachers and year advisers
- Assists students as required
- Maintain and facilitate contact with teachers
- Ensure students have a copy of all relevant subject assessment guidelines and schedules
- Read and understand the assessment guidelines and seek clarification regarding assessment tasks
- Notify teachers if a student is away, ill or unable to engage in their learning and/or assessment activities
- Provide assistance with the organisation of learning materials and resources for the student
- Interpret and explain teacher instructions, feedback and comments
- Ensure students read assessment notifications and understand the requirements of the task and when tasks are due
- Return the assessment tasks to the teachers indicating the date of completion
- Ensure students are fully supervised for all tasks to be completed under exam conditions
- Inform Southern Cross School of Distance Education if the Year 11 exam schedule is not being followed and notify the dates the school will conduct the exams.
- Keep a record of receipt and postage of work and assessment tasks.

Responsibility of the teacher

It is the responsibility of the teacher to:

- Establish a teaching program, in conjunction with their head teacher, which provides engaging learning experiences for their students
- Establish an assessment schedule that consists of 2 – 3 assessment activities, covering the full range of outcomes in that course, ensuring more than one outcome is addressed in each task
- Ensure that the types of assessment activities or tasks are appropriate to the objectives and outcomes being assessed
- Provide a variety of tasks and activities that use a range of assessment strategies
- Provide opportunities for students to display their achievements in different ways and to work in a range of situations
- Work together in planning teaching and learning activities and assessment and marking strategies
- Determine the weightings or relative importance of each activity
- Individualise and personalise the learning program for their students
- Monitor the engagement in learning of students and support students who are falling behind as well as sending official notifications where appropriate
- Provide valuable and timely feedback to students
- Explicitly describe the expectations and requirements of the activity or task to the learner
- Collect performance information for each student from assessment activities and record in DEMS
- Record evidence of student achievement based on observations during teaching and learning as well as from assessment activities
- Assemble the information on each student from the assessment activities to provide an overall picture of the student's achievement
- Match, in consultation with the subject head teacher, the overall picture of each student's achievement to the most appropriate level as described by the common grade scale.
- Keep a range of work samples including assessment tasks, marking guidelines, student work and feedback as required by NESAs.

Higher School Certificate Non-Completion of Course Determination

Student Appeal Form

This form should be completed only if the student feels that he/she has met the NSW Education Standards Authority (NESA) course completion requirements, as detailed in the Principal's Determination Form, and is requesting a school review of the decision to issue the determination(s) of non-completion of course requirements.

If submitting an appeal, this form is to be completed and signed by the student and the parent/guardian (if student is under 18 years of age)

Student Name: _____

Student Number: _____

School Name: _____

Student's Home Address: _____

In lodging an appeal, you are asking the school to reconsider the decision to give you a determination of non-completion of course requirements in a course. The Principal, in consultation with your class teacher or the Head Teacher of the course, will review your performance in the course and give consideration to your statement in support of your appeal. The Principal will decide whether there is sufficient evidence to change the original determination.

I wish to have the school reconsider his/her decision to issue me a determination of non-completion of course requirements in the following course(s):

Course Name (Please list Extension courses separately)	

Student statement in support of appeal

You need to detail how you have completed all NESA course completion requirements and include any evidence to support your appeal. You should refer to any official notifications you have been sent and provide details of tasks/assignments you may now have completed.

If you are appealing in a number of courses you need to name and comment on each course separately. Additional pages may be attached if you are appealing in more than three courses or if more space is needed.

My appeal is based on the following grounds:

Course: _____

Course: _____

Course: _____

Student's Signature: _____ Date: _____

Parent/Guardian's Signature: _____ Date: _____

Vocational Education and Training Assessment

How does VET assessment occur?

Assessment does not compare you against other students. It compares each individual against the 'competence' requirements of the training package.

At the commencement of the course, you will be given an assessment schedule indicating the timing, competencies and methods of assessment. You will have the opportunity to develop skills over time.

Teachers will usually organise a number of chances for students to demonstrate a competency. You may seek further opportunities to demonstrate competencies during the course.

Some assessment will be ongoing and evidence of competence will be gathered on a continuous basis. Other evidence will be collected through specific assessment tasks and events such as projects and assignments, written and practical tests, portfolios, role plays and simulations.

Your competence can only be assessed by a qualified VET teacher and/or an industry qualified assessor

So what is Competency?

Demonstrating competence means that you can perform the task or show an understanding to the level required by the industry standards. When you successfully demonstrate your competence against a particular standard you will be judged as competent. There is no pass or fail. You are either competent or not yet competent. If you believe that you have not been fairly assessed you have a right of appeal. The school's assessment policy provides full details on how each unit of competency will be assessed and the appeals process. Consistent attendance and sustained effort at all course activities are essential for gaining the qualification and meeting HSC requirements.

What is Recognition of Prior Learning (RPL)?

If you have had previous work or life experiences you will need to produce evidence to enable your teacher to assess your skills to ensure they are at industry standard.

RPL will only be granted for competencies where you are able to demonstrate achievement of all of the learning outcomes and performance criteria for that unit of competency. You would then be exempted from undertaking the training and assessment for that unit of competency.

If you have already completed content and learning for all or part of a similar unit/s of competency that is deemed equivalent, you may be eligible for credit transfer. Credit Transfer will be granted where you provide a result notice, certificate or competency record.

What is Credit Transfer?

If you have already completed content and learning for all or part of a similar unit/s of competency that is deemed equivalent, you may be eligible for credit transfer. Credit transfer will be granted where you provide a result notice, certificate or competency record.

What about examinations?

In most vocational courses you can choose to undertake an optional

HSC examination in order to count the course towards your Australian Tertiary Admission Rank (ATAR).

Exams throughout the course may contribute to the determination of competence and will be used to calculate and estimate HSC examination mark in the case of misadventure.

Study support information

Study Skills and Time Management

1. Ensure that you organise your day so that ample time is allocated to your studies.
2. Develop your own study timetable.
3. Keep a balance between subjects.
4. Contact your teacher to discuss aspects of your work or any problems you may encounter.
5. Keep up-to-date with your work. Do not fall behind in your work.
6. Remember personal research and extensive reading is an important feature of your study program.
7. Aim at developing your personal best.
8. Develop study habits that suit your personal needs. Learning styles vary from person to person. You may be a visual, auditory, or kinaesthetic learner. Discussing your work with interested people is often thought-provoking.
9. Allow for some leisure time to avoid becoming stressed.
10. Revise regularly - For example travel time could be used effectively to study.

Important considerations

Being able to manage your time is a key study skill. Studying at Stage 6 in both Year 11 and Year 12 does require a serious commitment to your work. As a student you will be required to complete the set assessment tasks and Learning Activities for each subject, but time should also be spent on independent study and revision. You must organise your time effectively, develop a study routine and remain committed to your work. Your teacher will advise you, and have suggestions for your approach to your studies and all aspects of your work.

Distance Education teachers aim to enable all students to reach their full potential.

A Note on Forgetting

Some students are not aware that everyone forgets things at an amazing rate. You must revise regularly. This graph gives you some indication of how much a typical person will forget without revising.

Percentage remembered

Without any revision after initial learning

The information on the following pages, relating to improving memory, was taken from a website NSW HSC Online especially designed by Charles Sturt University for students preparing for the HSC. This site provides numerous links to assist you with your personal study needs.

Study and Exams

Refer to your Student Portal and the NESAs website for information on study and exams.

Memory and Learning Styles

The main reason we forget something is because we never really learnt it in the first place

Memory

A good memory is something we must work towards. Things are forgotten because they never really have made a strong impression on us in the first place. The reasons for this lack of impression are as varied as one person to the next. Nevertheless, the most common reasons are:

- you are thinking about something else—you are not listening
- you do not think the idea was important
- you do not take, or have the time, to learn or store the material properly.

To remember information you need to realise that your memory operates on four levels of efficiency. Your ability to remember something increases from level 1 to level 4 depending on what you do with the information.

Level 1:

Hear or read the material once (not reliable for a test).

Level 2:

Read the information and review it once or twice (this is cramming— you will forget most of what you have read).

Level 3:

Read the information, review the material several times, write it down, and test yourself over the next two days (expect fairly good recall).

Level 4:

Repeat and frequently write down the information over a period of 3- 6 days (gives you excellent retention).

If you do not review what you have learned, you will forget 70% within an hour and 84% within 48 hours. One of the best forms of review is teaching, or telling someone else about the information using your own words. This is where study groups become invaluable.

Learning Styles

People learn and memorise information using a variety of "learning styles." Learning styles are how you concentrate, process and remember new and difficult information. You may remember information more easily through any combination of the following styles:

- hearing
- seeing
- reading
- writing
- illustrating
- firsthand experience

Be aware of your best styles of learning. Reading textbooks and other related material, as well as doing all the set assignments, are the other parts of the learning equation. It is beneficial for you to combine learning styles to be successful.

When you are studying:

- read the information aloud
- write it down
- read it over and over
- put it into a form or format that will make sense to you
- draw a diagram
- relate the information to what you already know
- picture and try to experience what you are learning
- teach the information to someone else.

Some Further Memory Advice and Examination Strategies

1. Find a good place to study and ensure that you have all the tools you need– computer, study notes, pens, paper and dictionary. Ensure that your study area is comfortable and the lighting is good.
2. Use the note-taking that best suits you
 - summarise important points,
 - underline key words, sentences and phrases
 - read, recall, reflect and review.
3. Use mnemonic devices to assist you in your learning
 - use rhyme where possible to remember keypoints
 - use an acronym to create a word using the first letter of keywords
 - use an acrostic sentence or phrase formed by words beginning with the first letter of each word you need to remember.
4. Memorise actively, not passively
 - try to use your senses to assist with learning – sight: not merely reading but visualising, sound: read aloud listen to your voice, you may use a recording device and listen to it in various locations
 - use association in your learning, relating the fact(s) to something significant to you.
5. Use constructive repetition to assist you in your remembering
 - read the information out loud, close your eyes and repeat it to yourself
 - close your eyes and repeat the information
 - write the information down
 - repeat the steps if necessary.

Examination Strategies

1. Your examination study should not be confined to a last minute cramming. Ensure that you are well-prepared and have followed your study time table effectively.
 - The last weeks should be an extensive review of your work
 - A good night's sleep before the examination is important
 - Arrive at the examination centre early, so you are not rushed
 - Check you have the correct examination equipment (where applicable, pen, paper, calculator).
2. Read the set questions thoroughly, thinking carefully about the meaning. Underline key words. You must understand the question if you are to give a satisfactory answer. Adhere to any instructions given on the paper, or stated verbally by the supervisor.
3. Be careful of your time allocation. Note the questions which have been allocated the most marks, these will require the greater time.
4. Multiple choice questions ask you to select the answer that best answers the questions. When attempting multiple choice questions, the wording of the multiple choice is vital to your interpretation. Read all the possible answers through carefully, perhaps the use of tense (past, present and future) and singular or plural wording may help with your answer. Words such as sometimes, usually, rarely, and never, may provide clues to the correct answer. If you are unsure about an answer, eliminate all those which you consider are wrong. Do not spend too long on one question, especially when all answers are worth the same amount of marks.
5. When answering an essay type question, again ensure that you understand the meaning of the question. Try to interpret it in your own words. Be aware of key words such as analyse, compare, contrast, and, to what extent. A glossary of key words is included at the end of this booklet. A guide to essay writing is also included on the following pages.

A Guide to Essay Writing

Each subject may have varying aspects to consider when writing an essay. The teacher of the subject you are studying will provide you with details relevant to a particular course.

The following will serve as a general guide to essay writing.

An essay basically consists of an introduction, the main body of the essay and a conclusion. You must read the set question carefully and be aware of key words. If you are working under examination conditions it will be beneficial to spend a few minutes planning your work. Prepared essays will allow you greater time for reflection.

- The introduction

Your introduction is basically a summary of your answer to the set question. It will address your line of argument (or your thesis). You may need to refer to other associated texts if the set question states this as a requirement. Be very careful that you are addressing the question asked. If your introduction is a good one, it will assist you in maintaining your line of argument throughout your writing.

- The main body of your essay

The main body will follow the central line of thought and will support your thesis. Each paragraph will focus on a main idea; it will provide examples to substantiate your line of argument.

Each paragraph should be introduced by a topic sentence which clarifies the ideas being introduced in the paragraph.

Each paragraph should clearly follow the one before; the essay should not be disjointed. There should be a logical sequence. Linking phrases or words will assist in allowing your essay to flow. The number of paragraphs used will depend on the word limit or time allowed for the essay, especially if working under examination conditions. Remember your line of argument with relevant supporting details, must continue throughout your writing. You are proving what you have stated in your introduction, presenting your case, just as a barrister with supporting evidence, presents his case to a judge or jury.

- The conclusion

The final paragraph in your essay is the summing up of your main points raised. It is the final summation. The marker will decide if you have presented your case successfully.

Prepared essays will require careful planning and proofreading. Punctuation, grammar and spelling should be faultless. Examination essays also should not neglect appropriate language, grammar, spelling and punctuation. Consistent effort is required throughout the course to improve your writing style, syntax, spelling and punctuation. These literacy aspects are very important in successful essay writing.

A Glossary of Key Words

Syllabus outcomes, objectives, performance bands and examination questions have key words that state what students are expected to be able to do. A glossary of key words has been developed to help provide a common language and consistent meaning in the Higher School Certificate documents. Using the glossary will help teachers and students understand what is expected in responses to examinations and assessment tasks.
